Good News... Heat Wave...

By Pastor Ken Studer

This Spring was one of the wettest ever in our area. It rained and rained and rained. Reservoirs that were at record lows quickly filled.

When summer arrived the heat came. Triple digit temperatures during the summer are not uncommon in Southern California. But this year's heat wave has been exceptionally warm. It is even worse in areas like Phoenix.

Phoenix, Arizona, broke a record by recording a temperature of at least 110 degrees for 30 consecutive days, as of this writing. The hottest day ever recorded in Phoenix was June 26, 1990 when the temperature reached 122 degrees Fahrenheit. Fortunately, Irvine has never been that warm.

The Bible indicates that a time is coming when the whole earth will experience intense heat,

The day of the Lord will come like a thief, in which the heavens will pass away with a roar and the elements will be destroyed with intense heat.

2 Peter 3:10 NASB

When we experience triple digit temperatures

and we are really uncomfortable, it should remind us that one day soon the heat will be so hot that even the elements will melt.

The Bible says this will happen on the Day of the Lord. The Day of the Lord actually comes twice. The first Day of the Lord was on the Day of Pentecost.

Acts 2:16 tells us that "This is that" which the prophet Joel spoke of in Joel 2.

The second time "The Day of the Lord" occurs is at the second coming of Jesus. This is when there will be thunder, lightning, earthquakes, intense heat, etc. It is the end of the world.

When Joel describes the Day of the Lord he ends by saying,

It will come about that whoever calls on the name of the Lord will be delivered. Joel 2:32 NASB

Our current warm temperatures should remind us that the real heat is yet to come but we will be delivered. Good News!
